

INNOVATIVE DESIGN CONTEST

under
Design Innovation Centre (DIC)
18th - 19th September, 2017

About DIC

The Ministry of Human resource Development, Govt. of India, as a part of its 12th Five year Plan (2012-17) has taken a national initiative to set up a network of Design Innovation Centres (DICs) across the country. A DIC has been set up at UIET, Panjab University, Chandigarh. UIET is the hub while PEC, CSIO and HSJIDS are spokes to it. It has the following sub-themes :

- Energy Harvesting and Management Technologies
- Medical Devices and Restorative Technologies
- Transparent Ceramic Materials and Technologies
- Traffic Sensing & Information Technologies

Overview of the Event

DICs are setup to foster the culture of designing Innovative products, processes and technologies. This event aims to ignite young minds to propose startup ideas in the mentioned theme areas.

OBJECTIVES

- Interactive session with industry expert to generate design ideas in the area of **Energy, Medical devices, Traffic Management and Information Technology**
- Project proposals are invited from UG and PG students of Chandigarh and neighbouring states giving design solutions on problems related to above mentioned theme areas.
- Project proposals will be evaluated for originality, utility, distinctiveness in finding design solutions in theme areas.

Venue

**Seminar Hall
Academic Block-I
UIET, Panjab University
Sector 25, Chandigarh**

Concept Submission :

One page concept note should be mailed to smart.chd2017@gmail.com by **11th September, 2017**.

The shortlisted proposals will be invited through e-mail.
